3:55 Group Captain Rolphe talked to Gen Van with reference to "Thunderbolt". Asked if a couple of Naval officers could be invited to attend. Gen Van said yes and also suggested that a couple of top Ground Force officers be invited.

5:20 Gen Orval Cook on the phone, inviting him to attend an Air Force Meeting. Gen Cook advised him to have the meeting and then send the results to him. Gen Cook advised that the Chief of Engineers stated that it was in conflict with responsibilities assigned to him under Circular 138 and also contrary to their understanding of General Eisenhower's and Gen Spaatz' agreement. Gen Van advised he would try to get him the results tomorrow evening. Gen Cook asked him would he please call General Lutes if he (Gen Cook) was not in.

5:15 Mr. Ward of Fairchild

- 9:40 Gen Bob Douglas called from Lexington, Ky. enroute to his station, San Antonio, Texas. Gen Van advised him that Gen Spaatz was very disappointed at our show and expects great things to be done by you. Wants you to go to Paris Island, look it over where he thinks you will get a much bigger contrast. Gen Douglas said he would like to go to San Antonio, receive his goods and then go to Paris Island about the 27th. Also advised that he had been committed to Newark on August 1st and will probably see Gen Van in N.Y. Asked Gen Van to advise Gen Upston of the plans for Paris Island. Gen Douglas will call Gen Cannon & tell him what Gen Spaatz wants.
- 10:15 Gen Chauncey & Gen Ritchie
- 10:40 Gen Sam Anderson on phone. Gen Spaatz is having Gen Brereton & Gen Van for lunch and thinks that Gen Anderson should also come. Gen Anderson said he would bring with him the paper which Gen Eisenhower wants to see prior to his going to the hospital at 2:00 o'clock this afternoon. Gen Anderson said that in the event that Gen Eisenhower wanted the paper before that time, he would bring it down and discuss it with Gen Spaatz before lunch.
- 10:50 Mr. Leo- on the phone —said that he understood that Tony Laverno (N.Y. Times) had been authorized by Gen Van to talk to the Staff Sections to get their view on unification—that is changes that might take place immediately unification is passed. Gen Van said he had talked to Laverno and told him there would be no immediate change and it would not affect us one way or another, that we were just going to carry on and really go to work. Mr. Leo was most anxious that Laverno not be given the idea that we were going into new uniforms—thank God we were free again and all that sort of thing. Gen Van said he gave him the idea that right after unification we were not going to change everything. Advised that we would have to go along with Mr. Laverno, but along with him coordinated. Mr. Leo said he would contact Mr. Laverno further.

11:35 Col Hull on phone. Gen Van wanted to know when Gen O'Donnell would be back. Wants him to go to Wright Field, leaving tomorrow morning at 8:00 o'clock. Col Hull will locate Gen O'Donnell and advise Gen Van.

11:40 Congressman Busbey with reference to Lt. Blazina and Lt. Col. Donald Hillman flying at Chicago Memorial Day Program. It is not the intention to have stunt flying but just wants them to be in the air during the celebration. Advised Gen Van that it is not a densely populated area and a lot of vacant property around. At least twelve miles from the city, two miles from the airport. General said he would have it looked into, but that it seemed everytime a boy went to his home town he cracked up. The Congressman said it was close to the airport and they were used to airplanes in Chicago and it did not make any difference as to the height they flew. Gen Van will advise Congressman Busbey.

12:35 p.m. To lunch w/Gen Spaatz, Gen Brereton & Gen Sam Anderson.

1:30 Returned

9:50 General Stearley on phone with reference to the 3 letters sent to Mr. Hoffman, one signed by Gen Van, one by Gen Spaatz & one by somebody else, saying that the AAF would look just the same and it wouldn't cost anymore with Unification. Mr. Karsten would like to use these letters on the Floor. General Stearley said it was all right for him to have them. The General said he would go over there after lunch & Gen Stearley asked that he stop by the office of Congressman Price where there would be a card for him to get in.

10:15 Col. Harris Hull

10:25 General Schuyler on phone in regard to the paper Gen Van was talking about to Norstad. Gen Schuyler said that his lawyers have a few changes in words which they think are necessary to clarify it. Gen Schuyler said they had checked it over with Anderson, and it is agreeable to him.

10:30 Col. Giffin brought papers down for Gen Van to initial.

10:35 Gen Sam Anderson on phone saying he is agreeable with the changes that have been made reference the above papers. They were made to him on the phone.

10:40 Gen Anderson called back and asked that the papers not be initialed, as Admiral Leahy is writing a letter non-concurring with Gen Eisenhower's memorandum and writing a much shorter one than we wrote, but that it says much the same thing. Admiral Leahy is writing that the problem confronting the State Dept. was not answered by the Chief of Staff's memo. ^{Anderson} Gen ~~Van~~ was also told that the Navy Dept was going to concur with the one prepared by Leahy.

18 July 1947 (Cont'd)

General Van said that he concurred in both of them.

10:45 a.m. Gen Sam Anderson called and said that Gen Tom Handy said that Ramsey was on his way over with Leahy's revised version, and asked that Gen Van come up to his office.

2:00 To Gen. Partridge's Office for conference.

3:00 Gen. Henry on the following - with reference to meeting on Monday to decide whether the Pacific Route or the Northwest Staging Route is going to be used for the Air Lift for exercise in Alaska. Gen. Henry stated the joint Board was of opinion the inside route and the Alaskan Highway that parallels it are most desirable to be retained if not essential for the Air Support of Alaska. The Canadian Cabinet has called on its members to present a United States Defense for the maintenance of that system. If we want that system maintained we should show some interest by using it. The winter maneuver is our chance. ~~xx~~ If you go up the other way there will be no air lift until you strike Anchorage and Gen. Van stated that is the reason we are considering the inside route — there are the worst icing conditions up there in the world. Only 20 days when it is clear and Gen. Henry said we had lots of money on the inside route and the Canadian Government had reimbursed us for it. Gen. Vandenberg stated to General Henry "What you are saying is that you would prefer from the Joint Board's viewpoint that we use the inside route — use it at least for part of the maneuver. I don't entirely agree but I will bear it in mind when we talk about it on Monday when Quesada will be present."

3:20 P.M. Mr. Symington Called Gen. Vandenberg. Gen. Van stated that the budget is the most distressing thing he has come up against and the next distressing is trying to find out why we are not getting anywhere on the Alaskan lift. Said he had talked to General Gaffney and called Gen. Norstad and didn't get much there — apparently Craig's Headquarters is the one that has the say and here they put in for eight million for the Ground Force and four million for Air Fields and that kind of business isn't going to help a bit when we get unification. We had a conference for about 3 hours on airplane procurement. We come in for things that couple of colonels and majors in the back room have agreed is Air Force policy — but we have a procedure now and will see what comes out of it. Mr. Symington stated the fewer the models the better. Mr. Symington stated that Don Burrows, now with War Assets would be tops and would help General Rawlings an awful lot, as he did not want "Ed" to drop Cost Accounting for Budget — that he considered Cost Accounting the most important. Gen. Van stated that he would like to come out and see Mr. S. after we get a little further along. Mr. S. said he would be in San Francisco and the Los Angeles area around the 10th.

3:45 P.M. General Gardner said he had been worrying lest the Navy might get gasoline procurement but instead they are now suggesting a Joint Procurement System. General Gardner thinks it is a very good idea but wanted to check with General Vandenberg before he called General Lutes back. General Vandenberg agreed that it is all right for the interim because the new Secretary of National Defense will probably have ideas of his own — he might go along with it or he might not.

4:00 P.M. General Booth called to tell General Vandenberg that Mr. Patterson had resigned effective the 24th and that General Royall is being appointed Secretary of War effective the 24th. Gen. Van stated he would give Mr. Symington a call..

4:10 P.M. Gen. Vandenberg called Mr. Royall to extend his congratulations and best wishes both for himself and General Spaatz who was flying.

Colonel Ordway called re Rio conference, which is to be a Working Committee composed of State, War and Navy Departments. Colonel Ordway wanted name of the general officer the AAF is going to send to Rio. General Vandenberg gave him General Weyland's name. State Department people think the conference will be finished in about 10 days. Colonel Ordway will keep General Weyland informed.

General Welsh called to say that he is going to have some repair work done Tues. afternoon, which should take about a couple of hours.

General Welsh also stated that if the Hoffman bill passes and the Nimitz clause is retained, there is a possibility of a Presidential veto.

9:17 Col. Carpenter on phone. Gen Van stated that one of the columnists said in the paper this morning that we were a military department and therefore not on a par with the Navy & Army and were worse off than before. Col Carpenter he said he had told the reporter that the law stated we were a military department and not an executive department. He said he thought this was a Navy scheme and that there was no intention to make the Air Force the same character as the Navy & Army. Col Carpenter said "Military" may not be the same as "Executive," and thought this was a bad thing in the law.

10:25 Mr. Robt Lovett, Ass't Secy of State, on the phone--stated that he was to testify in the Brewster Investigation Committee next week with reference to the Kaiser-Hughes (HK1). Felt that he should see the file on that and asked if Gen Van would get it out so that he could come over and take a look. ** 12:20 p.m. Col White returned Gen Van's call. Gen Van asked him what the status was on the '48 appropriation. Col White replied that there was no definite action on it. Col White said that there were no rumors except that judging from the Navy Bill, he would judge that the War Dept would get about 80% of the recommendation and the Air Forces would get even more than that.

4:40 Mr. Shaw

4:42 Gen Spaatz

4:45 Congressman Harness of Indiana on the phone to find out the situation with respect to taking officers in from the Reserve to the Regular Army who might be over age. Gen Van advised the WD had set a policy to which no exceptions have been made to date. He advised that integration of officers into the Army has been on age groups in grade so that 10 or 15 years from now we will not have a hump. Congressman Harness had in mind Major Donald G. Lambert an Attorney (patent) out at Wright Fld., who is 4 months over age, and has not made application due to that fact. Congressman says he understands the Air Forces would like to retain him, and perhaps a waiver could be made in his case. Gen Van to look into it and call Congressman Harness.

5:10 Gen Chauncey

5:15 Gen Welsh on the phone re possibility of someone for the National Guard & Reserve—suggested Tim Manning and Gen Van said he was a good "guy" etc. Gen Van asked how long his primary basic training was going to be tied up with the Navy. Gen Welsh advised it was their airplane and Gen Van asked him if he could get it turned loose for a loan to the Army for 3 weeks. Gen Welsh said he would take a reading and call him up tomorrow afternoon.

11:05 Returned from Briefing and to Mr. Symington

11:45 Returned from Mr. Symington's office.

12:30 p.m. Gen Harper re planes to take Foreign Committee to Europe & Japan. Gen Harper said he was sure he could do it and actually it would be a very good business to his way of thinking. Gen Van said he did not want to overload Gen Harper's people. Gen Harper said that they should have an aircraft available with a crack crew any time. Gen Harper informed Gen Van that they could take 24 with 4 portable bunks and 30 with just the seats. Gen Van said he would talk further with him on the subject.

12:45 To Mr. Symington

12:50 Colonel Flickinger

1:00 Gen Van called Gen Carter in Gen Marshall's office and told him that we would have to find out where this Foreign Committee wants to go, when and how long. Gen Carter informed Gen Van that this will not be a deal where Congress will have to appropriate the money to pay the War Dept for it. Gen Carter said that the only matter of principal that had to be decided upon this afternoon was whether or not the War Dept could bear the revenue out of its appropriations. Gen Van said we could give Gen Carter his answer when we found out where they want to go, when and how long. Gen Carter said he would find that out right away and call Gen Van back.

1:10 Gen Carter on phone re Foreign Committee going to Europe and Pacific by plane. Gen Carter informed Gen Van he has talked with Cong. Eaton. They had originally planned to break the Committee up into 3 or 4 Committees. They were more worried about getting around on ATC facilities than anything else. They are now considering the matter to see just what they are going to decide. They want to go to Europe and to the Pacific that is why they have split up into Groups. Gen Carter said he had talked to General Eisenhower

25 July 1947 (Cont'd)

and he said that the War Department would bear the tariff and they would have an airplane available for the whole Committee. Gen Eisenhower said that when they used Army transportation it would be free of charge. Gen Carter is waiting now for the call from the Committee as to whether or not they would be using the airplane. They also asked Gen Carter to contact the Navy to see if a boat could take them over. Gen Van informed Gen Carter to give any further information to Major White, if he is not here (Gen Van.)

- 1:13 p.m. Mr. Paul Fonda (Fairchild) on phone, informing Gen Van that they would get the trainer into the Training Command on Wednesday, the 13th of August for as long as they would like to have it.
- 1:15 To lunch
- 1:40 Gen Cannon on phone asking Gen Van if he had given anymore thought to gasoline. Gen van said we were working on it, and that we were getting some more bids in. Gen Cannon said that as far as the students go in the Trng Cmd, they should have enough gas to put them through, but if they hold them up it will throw a monkey wrench into the entire training program. Gen Cannon said that if the students are held up in this class it will mean they cannot take a class the 15th of October. Gen Cannon said they have no objections to the permanent party flying just enough for pay purposes but he did think that consideration should be given the Training Command for enough fuel to complete the training of the students they will have. Gen Van asked Gen Cannon if he had an estimate of what that would take. Gen Cannon said he didn't have it right there but he would get it to Gen Van. Gen Van asked that Gen Cannon estimate the minimum amount of gas that they will require. Gen Van said that as soon as he receives Gen Cannon's estimate of their minimum requirements he will give him a definite answer.
- 1:45 Gen Van called Colonel Feigel, A-3 and asked him what the situation was in regard to oil for the Training Command. Gen Van said that he wanted an answer for Gen Cannon on Monday. Gen Van said that Gen Cannon was going to send in his estimated minimum requirements. Gen Van asked Col Feigel to call back Sat. and give him a report.

He got a ltr to come out to Mitchel to sit in on some meetings etc. He claimed there was nothing he could do for the 1st Air Force. He said he was interested in the Air Reserve Program and was interested in getting an assignment in Wash., D. C. Where he could do the most good. Gen Van said that he would like to tell Mitchel Fld to leave him (Col Rosenblat) alone and that about Jan or Feb when things are more straightened out then he would fix his status. Col Rosenblat will go over to Mitchel himself and see what it is all about. He told Gen Van not to do anything, that he would take care of it himself.

12:40 To lunch w/Gen Spaatz, LeMay and Dr. Conant

4:10 Gens Kepner, Weyland, Power & Col Armstrong re Operations Crossroads.

4:30 Gen Twining on phone stating he is sending in a letter on 1948 aircraft production program. It has to do with moving fast on '48 production and to have something to show for our money. Gen Twining said that in regard to the Evaluation Board (Gen Lemay, Gen Van and Gen Twining) we want it 100%. It may be a little late for 1948 funds. Gen Twining said that Mr. Symington and General Spaatz said that we should move promptly. Gen Twining said that if we delay longer we are not going to have enough delivery to show. We are not in any way changing our mind about Evaluation Board. We still think we should have it. Gen Van said he was worried about after we are spending this money whether or not at the end of the time we get these airplanes, can somebody ask us why we bought those particular ones.

4:35 Under Secretary of Navy Sullivan on phone, stating that they have a problem involving Corpus Christi. He said that they have three aviation training centers at Corpus Christi, Pensacolo and Jacksonville. He said that they are not able to support three. He said that they are now working on the problem of contracting their training operations into 2 stations. He asked Gen Van if we were interested in Corpus Christi. Gen Van told Mr. Sullivan that we would like to look it over and would let him know.

5:00 Mr. Symington on phone saying that he called Larry Norstad after talking with the White House. He asked when this bill would go into effect. Mr. Symington said that Gen Norstad feels that it should be the 1st instead of the 15th of Sept. He said that Mr. Forrestal will bring this up tomorrow. Mr. Symington asked Gen Van if it wasn't true that we had been working on this quietly for a year. He also asked if it wasn't true that since Gen Van came in he had been working on it quite heavily. Some of the things will obviously be changed over and some will take time. Gen Van said there were three categories. Gen Van went on to say that there was a Class III Station which meant an Air Force Station. There is a category where there is some controversy but we feel should be transferred to us about October, November, December, or January. For instance the handling of the 1948 Budget. Gen Van said that money is in the War Dept and we are going to have to administer it but the indirect appropriation of the AAF^{with} is in the hands of the War Dept and they already have it/in their system. We want to wait on that until that is cleared up. Gen Van stated that there is another category that depends on what the Secretary of National Defense decides. he is going to do with the hospital systems with various things that the Navy & the Army may want to get together as a central procurement agency and we will put our money into the pot. Mr. Symington reviewed what Gen Van said by stating; in other words there are the ones that really will have autonomy anyway. Gen Van said that those are the ones that

23 July 1947 (Cont'd)

we are going to try and get the 1st of Sept. Gen Van said there are several other categories that are going to take various lengths of time and we will work them out with the WD and the Navy Dept. Mr. Symington asked Gen Van if this was under his direction. Gen Van said yes. Mr. Symington then said that then there are ones that have to have the decision of the Secretary of National Defense. Mr. Symington stated that we have people, (personnel) money and we are getting control of the money anyway of our budget. Gen Van stated of the '49 direct Air Force. Gen Van said that we cannot take over all of the indirect of the '49 Budget right away because we have to build up our people in order to take care of that. Mr. Symington said that we are going to get our '48 as soon as we can and get our '49 automatically as we develop it. Gen Van agreed. Mr. Symington said that our personnel will come to us as soon as the WD says we can handle it and they will be the first to say we should handle personnel. Gen Van said that there is a joint recruiting program which we have contributed money to. Gen Van said we are looking at that now to see whether or not both the WD and the Air Force will recommend that there comes our share to us and should we handle it or should we continue to do it on a joint basis. That is another one of those longer term things that we are working out. This is not a September 1st job by any means. Mr. Symington suggested that Gen Van consider putting somebody like Mr. Zuckert in his office to do spade work for this thing. Gen Van agreed that it was a fine idea. Mr. Symington said in that case Mr. Zuckert could run around and see him wherever he was and if anything comes up he knows some of his philosophy and then Mr. Symington could present it to Gen Van. Gen Van told Mr. Symington that he just had a call from Sullivan in the Navy. He said that the Navy is giving up Corpus Christi. He said Gen Cannon was on the phone at the time and he asked him if he wanted it. Gen Van told Mr. Symington that Gen Cannon was going to run down and take a look at it, but he is not going to make any commitments. Gen Van said that would involve some politics and that if we take that we will have to give up some other stations. Mr. Symington said that we should give up the field we want the least.

5:07 p.m.

Gen Stearley on phone. Gen Van asked what happened to the promotion bill & Gen Stearley said he could not get a copy of it. Gen Van wanted to know when it went into effect & Gen Stearley said as soon as it was signed. Gen Van said Mr. Symington was very anxious about this bill. Gen Stearley to call back.

5:15

Gen Stearley called back and put a Colonel Baya on the line to talk to Gen Van. Colonel Baya said that the Bill as it passed both Houses, provides for not more than five 4 stars for the Army, four 4 stars for the Navy plus one for Marine Corps and four Air Corps.

28 July 1947 (Cont'd)

Col Baya repeated as the Bill passed the House there were:

- 4 Army
- 3 Air Corps
- 3 Navy
- 1 Marine

He said the Navy were begging for 6. The Senate Committee finally agreed to give them 5, two more than the House gave them. They gave the Army one more and the Air Force one more. It was amended on the Senate Floor to cut the Navy down. In other words Colonel Baya stated that it is 5, four and four, plus marine. Gen Van asked when we could start making promotions for permanent grades of Colonel, Brigadier General & Major General. Colonel Baya said the Bill was effective at once. He also said that nobody can be promoted unless recommended by a Selection Board, therefore this board will have to be set up. For promotion of Captain, Major & Lt Colonel—it is not effective until next year. All permanent promotions are suspended for 6 mos. On July 1st of next year they will make these initial promotions to fill vacancies and those not selected are not considered to have failed. Gen Van asked when we can promote 3 & 4 stars. Colonel Baya said that under existing law there is no limitations on the numbers. Col Baya said that under the bill the limit takes effect on July 1st, 1948. Gen Van stated that in other words we cannot have 6 four star people in the Air Forces after July 1948 but we can have up to 6 or 10 until that time. Colonel Baya said that the new provisions of this bill with respect to 4 & 3 star provide that the President of the United States will designate for the Army, Navy and AAF certain positions which will carry the extra rank of which it specified as Chiefs of AAF, Army, Navy will be 4 star. The senior representative to United Nations will be a three star. The President will designate positions which will carry that rank. Gen Van asked the Col if that meant we could promote Brigadier Generals right away and the Col said yes.
